Production Process

SYNEX TEXTILE COMPANY

With a production capacity of more than 2000 tons of fabric per year, Synex is an ODM (Original Design Manufacturer) unit specializing in analyzing and developing samples according to customer's requirements through a production system that meets export standards. Product orientation in the direction of sustainable development with environmental and social responsibility

In addition to the strength of producing knitted fabrics for domestic and export markets, Synex is also a distributor of woven fabrics and some fabrics are imported from Korea.

ANALYZE & DEVELOPMENT

Analyze and plan production according to actual samples, innovate the product as required. Diversify materials and designs according to world fashion trends.

FLEXIBLE PRODUCTION

Closed process from yarn to finished products with manufacturers in Vietnam. Therefore, it is competitive on price, on-time delivery, supports multiple deliveries and resolves arising problems in a timely manner.

SAFETY AND ECO-FRIENDLY

Fabric production business are responsible for consumers, clear source of raw materials, clean production environment and development orientation of Recycled and Organic fabrics

IMPORT OF FABRIC

Flexibly become a distributor and importer of fabrics from factories with their own production strengths, high quality from other countries, timely response to customer requirements

SYNEX & MAIN FABRIC

COTTON FABRIC

COTTON & SPANDEX

Cotton fabric is one of the main materials of natural origin with the ability to biodegrade and bring eco-friendly value. The outstanding feature of the fabric is its ability to absorb sweat well, creating a comfortable handfeel. Yarns can be spun by carded CD or combed CM Ring, Siro, Compact, OE or MVS.

SYNEX & MAIN FABRIC

BLENDED FABRIC

CVC / TC & SPANDEX

Cotton and Polyester blend fabric is a mixture of properties from these two materials with common ratios: CVC 60% Cotton and 40% Polyester or TC 65% Polyester and 35% Cotton. This material has both good absorbency from Cotton and wrinkle resistance from Polyester. The yarn can be used : CM yarn, Siro yarn, Compact yarn, OE yarn or MVS yarn.
